Passionate **Computer Science graduate** eager to start my career as a **Technical Support Engineer**, where I can actively troubleshoot real-time issues, assist users effectively, and deliver reliable solutions while ensuring a smooth and satisfying customer experience.

TECHNICAL SKILLS

Programming: Python, SQL

Web Technologies: HTML5, CSS3, JavaScript, React.js, Node.js, Express.js

Visualization Tools: Power BI, Tableau, Excel

Databases: MySQL, MongoDB

Tools: Git, GitHub, Postman

EDUCATION

Srinivasa Ramanujan Institute of Technology

Bachelor of Technology in Computer Science (*CGPA: 8.78*)

2022 – 2026

Anantapur, Andhra Pradesh, India

S.V Junior College For Girls

Higher Secondary Education (*Percentage: 88.4%*)

2020 – 2022

Dharmavaram, Andhra Pradesh, India

MPL Girls High School

Secondary Education (*Percentage: 98%*)

2019 – 2020

Dharmavaram, Andhra Pradesh, India

INTERNSHIPS

Full Stack Development Using Python - VStand4U (Offline)

2025

- Developed dynamic web applications using Python (React), implementing backend logic and database integration.
- Designed and built responsive frontend interfaces using HTML, CSS, and JavaScript, improving user experience and usability.

Google AI-ML Virtual Internship - AICTE (Virtual)

2024

- Completed foundational training in Artificial Intelligence and Machine Learning concepts.
- Learned core ML workflows including data preparation, model building, and evaluation.

PROJECTS

Ecommerce-Website | (*React, Node.js, Express.js, MongoDB, HTML, CSS, JavaScript*) | [GitHub]

- Built a full-stack e-commerce platform with secure authentication using Email OTP verification and Nodemailer integration, ensuring verified user onboarding.
- Developed RESTful APIs and dynamic frontend (React + Vite) to handle product browsing, cart management, and seamless checkout flow.

Employee Attendance Management System | (*React, Node.js, Express.js, MongoDB, JWT*) | [GitHub]

- Developed a secure full-stack attendance management system to replace manual attendance tracking with a digital workflow.
- Implemented role-based access for Employees and Managers, enabling check-in/check-out functionality and a managerial dashboard for monitoring, filtering, and exporting attendance records.

CERTIFICATIONS

Certified Smart Coder and secured a Bronze certificate : (Link)

ServiceNow Certified Application Developer

HackerRank Python Certificate : (Link)

ACHIEVEMENTS

- Solved more than 200+ Problems on DSA in leetcode, Hacker rank, Code Chef
- Progressed from beginner to intermediate in DSA through consistent practice and contests on LeetCode, CodeChef, and Codeforces, earning a T-shirt as an achievement for performance.
